

Ready-to-use
water supply

CVE Package plant unit at a glance

Ready-to-use water supply with CERTUSS package plant unit CVE

- + All supply and water treatment components for CERTUSS steam generators as complete unit
- + Less space required due to compact design
- + Professional installation ensures reliable and safe operation
- + Corrosion protection by powder-coated base frame
- + Complete with electrical sub-distribution
- + Easy maintenance and access
- + Low-cost serial manufacture with optimally-coordinated components
- + Use of approved, high quality materials
- + Reduction in costs through considerable reduction in mounting time
- + Safe due to factory pre-installation of water, steam, electrical and power connections

The following are prefabricated in the factory:

- + Complete piping from steam generator to supply unit, insulation feed water tank
- + Complete electrical wiring of the components of the supply unit
- + Premade connecting cables to customer specifications
- + Customer-specific listings in CAD format as support for planning
